

## **Bug Report**

ID number	#Bug-01
Name	MENU – Campaigns (Kampanjat) button link not found
Reporter	Hiep Huynh
Submit Date	19/09/2024
Summary	When click to the Campaigns button, there is no landing page which link to that button.
URL	<a href="https://www.jimms.fi/fi/Product/List/000-0WS/tietokoneet--apple?fmap=500#:~:text=Services-,Campaigns,-Roasted%20prices">https://www.jimms.fi/fi/Product/List/000-0WS/tietokoneet--apple?fmap=500#:~:text=Services-,Campaigns,-Roasted%20prices</a>
Screenshot	Screenshot 01
Platform	Macintosh
Operating System	Sonoma 14.6.1
Browser	Chrome Version 128.0.6613.138
Severity	Medium
Assigned to	/
Priority	High

## Description

When my robot click to every button in main menu, the landing page of Campaigns does now show up.

## Steps to reproduce

- > Navigate to main menu
- > Click to the 'Campaigns (Kampanjat)' button
- > nothing show after that

## Expected result

The Campaigns landing page should show up

## Actual result

There are no further action after click to that button.

### **Description**

When attempting to post a comment on a blog article, the system does not register the comment, even when all fields (email, name, and comment content) are filled.

### **Steps to reproduce**

1. Navigate to a blog article on the website.
2. Fill in the required fields for commenting (name, email, and comment).
3. Attempt to post the comment.

### **Expected result**

The comment should be posted and visible on the blog page.

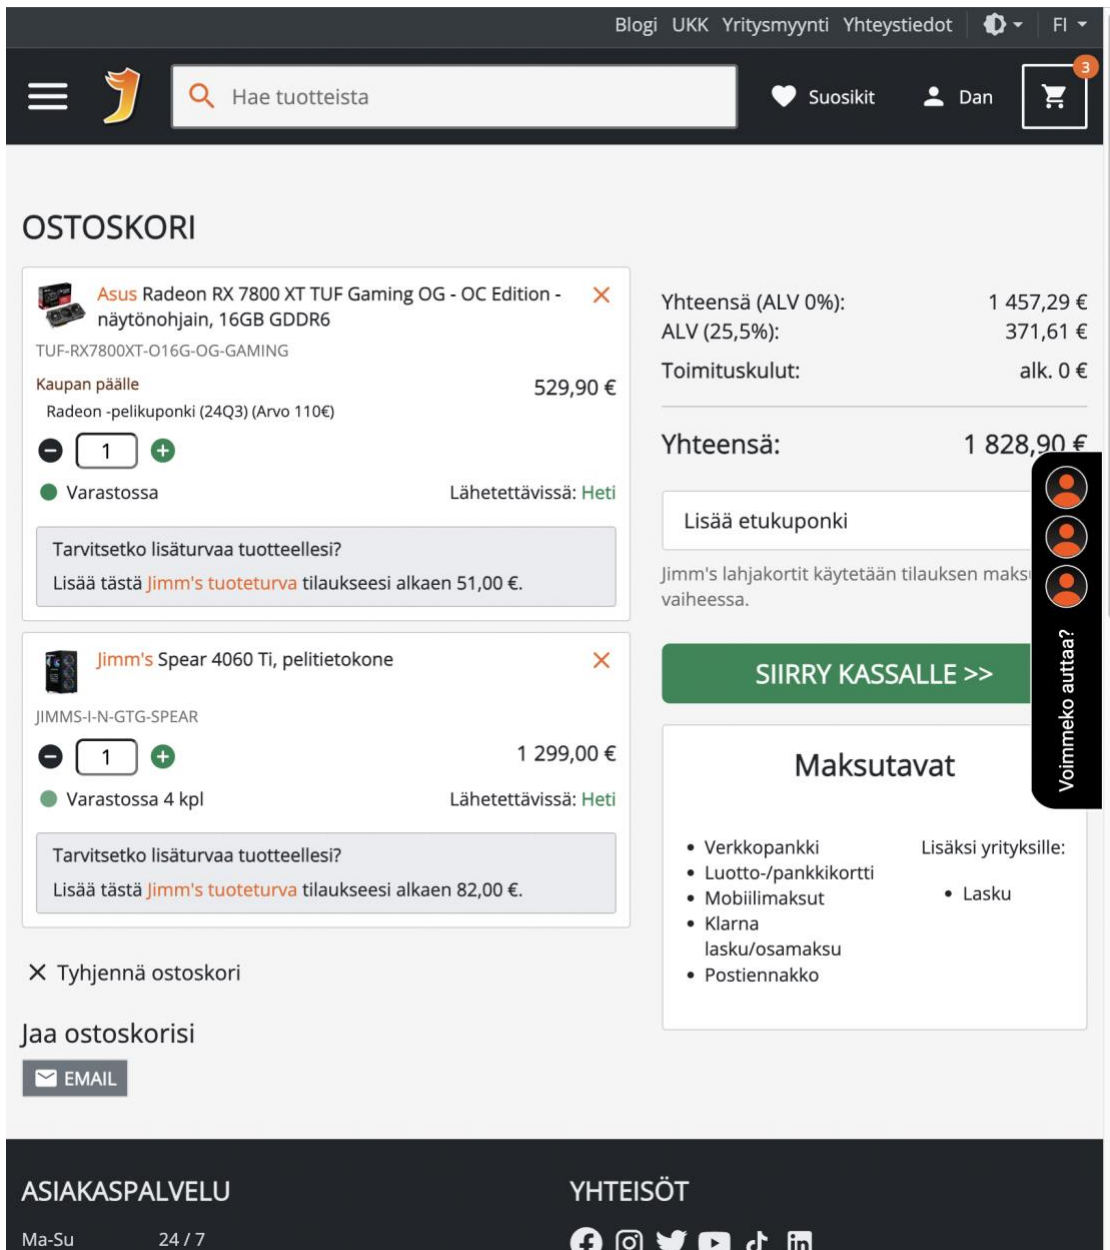

### **Actual result**

The comment is not posted, and no error message is shown.

### **Notes**

## **Bug Report**

ID number	#Bug-03
Name	Cart icon product count does not match actual cart contents
Reporter	Chi Nguyen Dinh Khanh
Submit Date	20/09/2024
Summary	The product count displayed on the cart icon at the top right of the screen does not match the actual number of products added to the cart
URL	<a href="https://www.jimms.fi/fi/ShoppingCart">https://www.jimms.fi/fi/ShoppingCart</a>
Screenshot	Screenshot 03
Platform	Macintosh
Operating System	Sonoma 14.6.1
Browser	Chrome Version 128.0.6613.138
Severity	Medium
Assigned to	/
Priority	High

### Description

After adding products to the cart, the number displayed on the cart icon does not reflect the correct number of products in the cart.

### Steps to reproduce

1. Add several products to the cart.
2. Observe the product count displayed on the cart icon in the top-right corner.
3. Compare the displayed number with the actual number of products in the cart.

### Expected result

The cart icon should show the correct number of products in the cart.

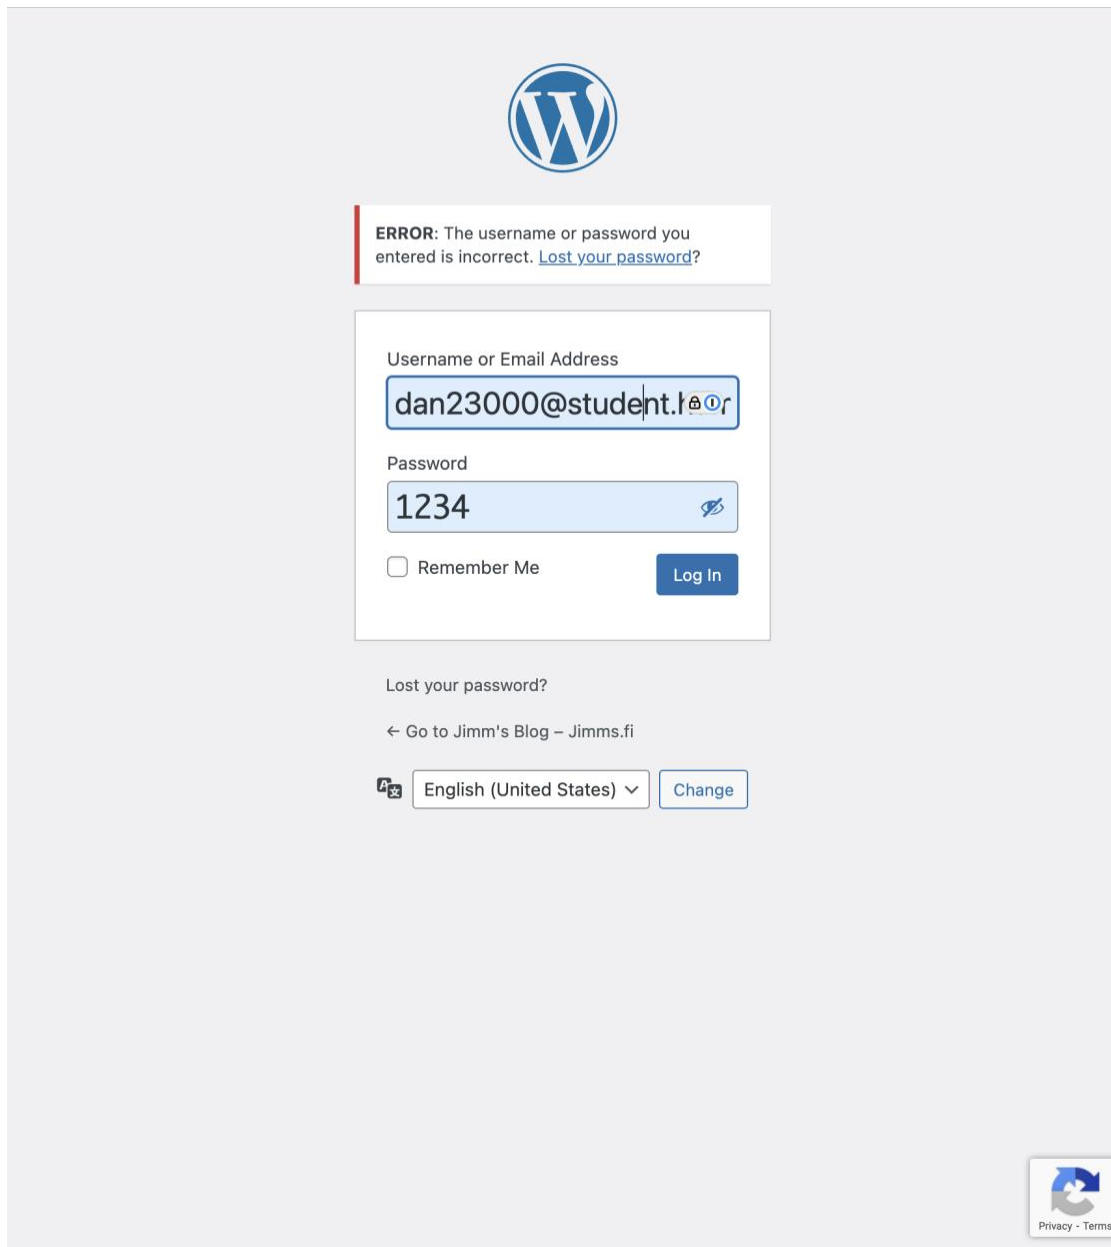

### **Actual result**

The cart icon shows an incorrect product count.

ID number	#Bug-04
Name	Login icon in blog page redirects to Admin login
Reporter	Dan Vu
Submit Date	20/09/2024
Summary	When clicking on the login icon in the blog page, users are redirected to the Admin login page instead of the regular user login page.
URL	<a href="https://blog.jimms.fi/wp-login.php?redirect_to=https%3A%2F%2Fblog.jimms.fi%2Fpelipisteesta-persoonallinen-rgb-valaistuksella%2F">https://blog.jimms.fi/wp-login.php?redirect_to=https%3A%2F%2Fblog.jimms.fi%2Fpelipisteesta-persoonallinen-rgb-valaistuksella%2F</a>
Screenshot	Screenshot 04
Platform	Windows
Operating System	Windows 11 Pro
Browser	Chrome Version 128.0.6613.138
Severity	High
Assigned to	/
Priority	High

### **Description**

When users attempt to log in by clicking the login icon on the blog page, they are redirected to the Admin login page instead of the normal user login interface.

### **Steps to reproduce**

1. Navigate to the blog page (<https://blog.jimms.fi/>).
2. Click on the login icon.
3. Observe the redirection to the Admin login page.

### **Expected result**

Users should be directed to the regular user login page.

## Actual result

Users are redirected to the Admin login page.

## Description

The Subscribe feature on the blog page does not work. Users are unable to successfully subscribe to the blog after entering their email address.

**Steps to reproduce**

1. Navigate to the blog page (<https://blog.jimms.fi/>).
2. Enter an email address in the Subscribe field.
3. Click the Subscribe button.

**Expected result**

The user should be successfully subscribed to the blog and receive a confirmation message.

**Actual result**

No action is taken after clicking the Subscribe button, and no confirmation is received.
